## Benefits:

- Custom shading at our high-end operatory (Located in Midtown Manhattan)
- Professional photographs and hand color effect rendering
- Smile design evaluation

Our main goal is the close collaboration between the clinician and master technician from the start of treatment planning to the final seating. We utilize these steps to ensure the best outcome of each case:

- Treatment consultation
- Diagnostic models
- Functional aesthetic diagnostic waxups
- Indices (preparation models, labial and incisal preparation guides)
- Clear periodontal guides
- Implant treatment design and cost analysis
- Matrix for provisional restorations:

All Creo Couture cases will be handled by our master technician. Through our philosophy of shared discipline and operational efficiency, our team can collaborate to provide both for your patient's aesthetic expectations and functional needs.
